TO THE SECRETARY OF THE BOARD OF TRADE.

SIR,

I HAVE the honour to submit the nineteenth number of the Statistical Abstract for the several colonial and other possessions of the United Kingdom for the fifteen years 1867 to 1881.

The thanks of the Department are due to the various colonial authorities who, by hastening the transmission of their annual statistical returns, or by filling in specially prepared forms, have enabled this Abstract to be published in a fairly complete shape six months earlier than heretofore. Still, however, much is left to be desired in the promptness of the issue of the statistical returns in certain colonies.

Two new tables have been added to the present number, one of which shows the Customs revenue of all the colonial possessions for the last 15 years, and the other the values of the imports and exports into and from each principal possession, distinguishing the countries with which the trade has been carried on. A table similar to the latter has been included in the Foreign Abstract for some years past, and the present addition to the Colonial Abstract will be a supplement to those returns of international trade. A table of sailing and steam tonnage entered and cleared at certain of the colonies was added to the last number of this Abstract, but this distinction has only been adopted of late years, and is not as yet general in the statistical returns from the colonies.

The Customs tariffs of the various colonies are revised to the date of publication; further detail for the principal colonies may be found in Part 2 of the Foreign and Colonial Import Duty Return, House of Commons Paper No. 322, of 1882.

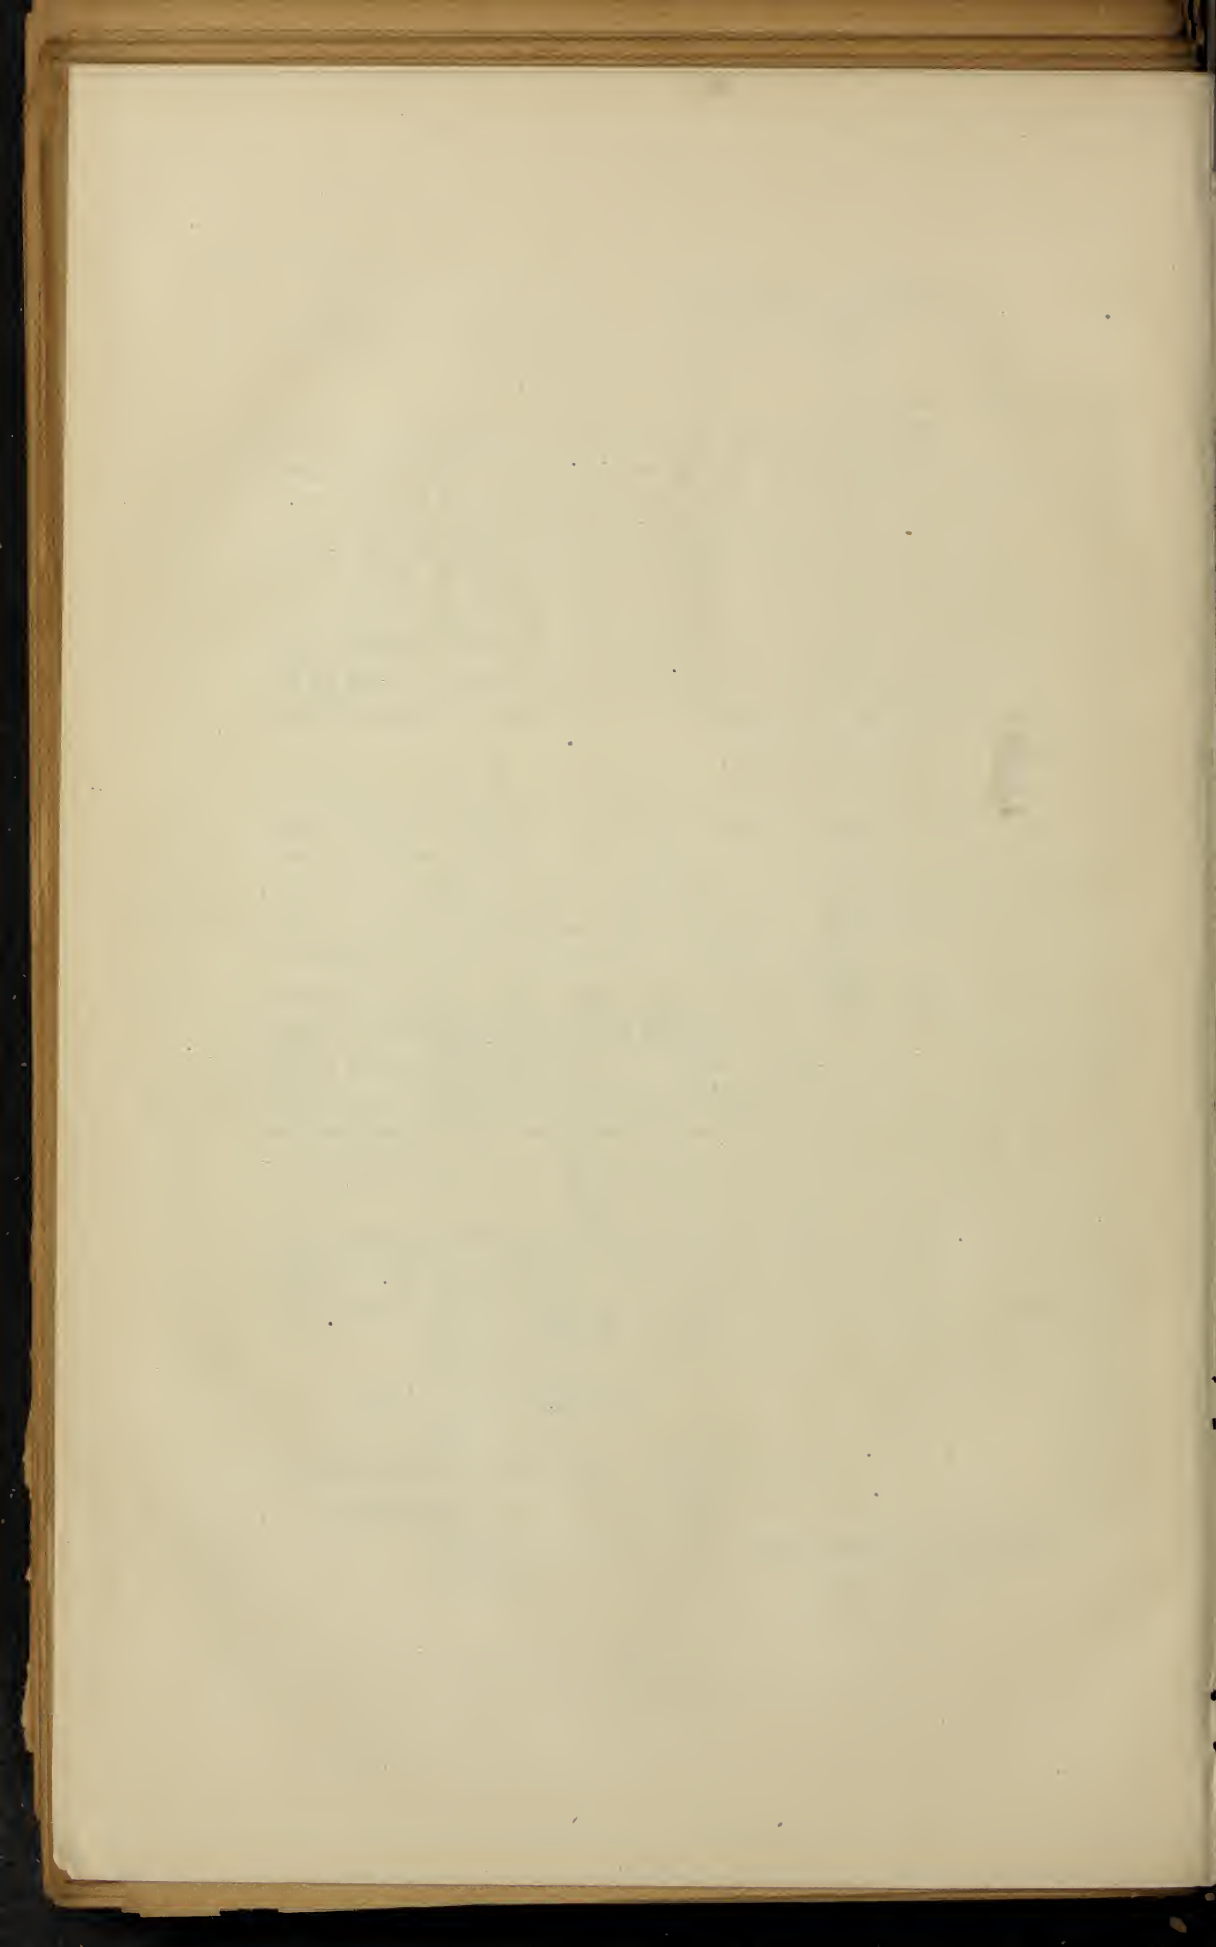

I have the honour to be,

Sir,

Your most obedient servant,

R. GIFFEN.

Commercial Department,
Board of Trade,
March 1883.
